

T&F MEET MANAGER 6.0 NEW FEATURES

Released December 20, 2016

ABOUT T&F MEET MANAGER 6.0

MEET MANAGER 6.0 *for Track & Field* (TFMM) is ACTIVE/HY-TEK's 7th generation of Meet Management software.

Provides the very highest level of functionality for Track & Field coaches, parents, volunteers, and officials.

Easy transition from TFMM 5.0 and prior versions.

16 new features described in the following pages.

WHAT TFMM 6.0 MEANS TO YOU

- Additional reports and features to make running a meet even easier.
 - FREE Tech Support for two years from the Production general release date.
-

General release – December 20, 2016

RUN MENU

- In Run > Preferences > Web Real-Time, you can now select to include Competitor Numbers in Web Real Time Results.
- In Run > Adjust > Eligible Athletes, you can use the new Alt column to mark an athlete as an Alternate. Non-alternate athletes are not eligible to progress into the next round.

SETUP MENU

- In Set-up > Options, you can now batch convert field event results between Metric and English units.
- Youth USATF age divisions in Set-up > Division/Region Names > Divisions have been updated to conform with the most recent USATF age divisions.

IMPORT / EXPORT

- When importing entries from a semi-colon delimited file, you can now mark an athlete as an alternate entry to an event.
- Team scores are now included when exporting results to semi-colon delimited results files.
- You can now import a semi-colon delimited file to only update seed times without adding new athletes or entries.

ATHLETE MENU

- In Athletes > Add or Edit Athletes, you can now add a disability classification for disabled athletes.

TEAMS / SCHOOLS MENU

- In the Teams or Schools pages, you can now record the Team or School's association in the Association field.

RECORDS

- You can now import Records from a manually-created, CSV-formatted Records file.

REPORTS

- In Report > Team Assignments Report (CC), you can now generate a Cross Country Team Assignments report.
- The Meet Check-in report now displays full team names, instead of team abbreviations.
- You can now view the dates on which entries or scratches were entered by running the Entry/Scratch Date report in Reports > Entry Lists Report.
- You can now select to display full team names or team abbreviations in single-column-formatted Meet Program and Meet Result reports.
- If an athlete's contact information has a blank city, then you can now select to display the team's city in front of the team name in reports.
- You can now include sub-events when printing reports by ticking the Include sub-events checkbox.
